COMPANY OVERVIEW

WELCOME TO CAMEO TECHNICAL SERVICES L.L.C

Cameo was established in the year 2007 by providing air conditioning and refrigeration services of small units. During the period of 14 years, Cameo had a great growth in air conditioning and refrigeration field. Today Cameo is doing centralised air conditioning (both water-cooled and air-cooled chiller) and rack refrigeration system work across UAE. Cameo has the technical expertise to carry out design, installation, replacements, upgrades, retrofits, commission and service of air conditioning and refrigeration systems.

Cameo has a group of experienced managers, engineers and technicians with excellent qualities and skills. We always provide excellent service to our customers and also maintain good relationships with them.

WHY US

AVAILABLE 24*7
BUDGET FRIENDLY SERVICES
ON TIME SUPPORT
PROFESSIONAL APPROACH
WELL TRAINED & SKILLED TECHNICIANS
100% CUSTOMER SATISFACTION

Our Services

We provides complete solution for air conditioning and refrigeration.

Air Conditioning System

❖ Maintenance of HVAC system We carry out maintenance works of Carrier, York, Trane, SKM & Hitachi chillers. Our service includes the following systems:

- Water-cooled chillers : Centrifugal, Screw & Reciprocating chillers.
- Air-cooled chillers : Screw, Reciprocating & Scroll chillers.
- Flooded and Direct expansion evaporators
- FAHU, AHU & FCU
- Cooling towers
- Primary & Secondary (VFD) pumps
- Air & water balancing works
- Duct cleaning works

❖ Design, commissioning and maintenance of Packaged air conditioning systems.

❖ Design, commissioning and maintenance of VRF air conditioning systems.

Refrigeration System

❖ Design, commissioning & maintenance of individual refrigeration systems for both chiller and freezer.

❖ Design, commissioning & maintenance of Rack refrigeration systems for both chiller and freezer.

❖ Design, commissioning & maintenance of cold rooms.

❖ Design, commissioning & maintenance of ice machine units.

Compressor Overhauling

- ❖ All types of compressor including centrifugal, screw & reciprocating compressors of Carrier, York, Trane, SKM & Hitachi Chillers.
- ❖ All types of semi hermetic compressors used in refrigeration systems, Bitzer and Copeland compressors of both individual and rack systems.

Motor Overhauling

- ❖ All types of motors used in HVAC systems including primary and secondary pumps of chillers, blower motors in FAHU, AHU & FCU.
- ❖ Blower motor used in Packaged air conditioning systems.
- ❖ Condenser fan motor of all air conditioning and refrigeration systems.
- ❖ Reamer motor used in ice machines.

- ❑ We perform regular inspection, proper preventive maintenance including service which will increase the life & efficiency of the Chiller.
- ❑ We ensure perfect human comfort by maintaining indoor air quality at a good level.
- ❑ We streamline the control strategy and upgrade the system to enhance the energy efficiency of the system.
- ❑ Annual maintenance contracts (**24*7, 365 days services**)
